Mark,

Attached are copies of the draft ASAOC for pre-remedial design at the Quendall Terminals Superfund Site, statement of work, and cover letters that were sent to you yesterday. Note that transmits two word versions of the draft ASAOC. The version dated 10/7/15 was mistakenly mailed to you. The 10/8/15 version represents the negotiating position of EPA. It includes a slightly different definition of future response costs than does the pdf version and provides for the recovery of the costs EPA incurs negotiating the ASAOC in addition to costs related to the implementation of the pre-remedial design studies. I apologize for the confusion. Note that EPA requests that you provide a good faith offer within 45 days of your receipt of this letter and requests that you attend a meeting on

November 10, 2015 at EPA's office in Seattle to discuss this matter. Please let me know if the 10th works for you and feel free to contact me with any questions. Thanks.
